Native American Day

September 27th, 2024

California Native American Day, which falls on the 4th Friday in September, celebrates the distinctive culture of the Native American people indigenous to California and calls attention to their triumphs and struggles that comprise their rich history.

California designated the fourth Friday of September as California Native American Day to dismantle the misconceptions about California Indians. Previously, students throughout the state were educated to believe California history began with the arrival of the first explorers and lacked a fundamental understanding of Native American's existing society. Native populations across the country were seen as primitive and were too often associated with stereotypes like teepees and drums.

This week's character strength is **TEAMWORK!**
 This means that you work well as a group or team member and work hard to help your team achieve its goals. Teamwork looks like a willingness to work together for the good of the group and help all group members succeed. Teamwork is connected to the happy feeling we get from being a member of a family, team, school or community. To learn together as a family, click on the link -> [P2 for Families](#).
